Greetings and thank you for your time.

The Friends of the Kerens Library own and operate the Kerens Library. The use of the library and all its resources is free to anyone. It provides books for all ages, including large print editions; computers and internet; current magazines and newspapers; movies and books on CD's.

There are cost, however, to operate the library. Besides the utilities and regular maintenance, we have a paid library manager. There is also maintenance of computers and internet and, of course, the purchase of the latest publications.

The Kerens Cotton Harvest Festival was started in 2004 to raise funds to build and operate the library. It is the only fundraiser for the library.

Thank you for your consideration to be a sponsor.
